

Submission Guideline ICEBA2026

Authors participating in ICEBA2026, please read this guide to choose the correct journal for your submission and understand the process, submission deadline, review, peer review, finalization, and publication.

Step 1. Abstract Submission: before June 1, 2026

- Prepare the abstract including the following information: title, author list with institution, 5 keywords, main content of the abstract (approximately 200 words, 8-10 lines, A4 page), corresponding author information;
- The abstract must be written in English (except submission intend to (4) Journal of Construction, which can be written in Vietnamese);
- Submit directly through the ICEBA2026 conference submission site;
- Authors submit abstracts by subject area (8 sessions) and choose 1 of 4 following journals for publication:

- (1) *The Proceeding of ICEBA2026 on Book Series of Springer Nature* (Indexed Scopus);
- (2) *The special issue of Chinese Journal of Physics (Q1/Q2, Taiwan)*;
- (3) *The special issue of IEEJ Transactions on Electrical and Electronic Engineering (Q3, Japan)*;
- (4) *Journal of Construction (Vietnamese, Non-Scopus)*.

- After submission, an ID paper code will be assigned by the submission system and remained throughout the submission process;
- CMT submission guidelines is downloadable below.

Step 2. Abstract Notification: June 15, 2026

- The ICEBA2026 Publication Committee will read the abstract and review the suitability of the submitted paper to the submitted session.
- Based on the Publication Committee's recommendation, authors may review, re-submit to other sessions or re-select one of the four journals for publication (or withdraw the paper).

Step 3. Full Paper manuscript submission: before July 15, 2026

Noted: Authors submit the full paper with the same ID has been assigned when submitting the abstract.

- All submitted full papers must be written in English and in template corresponding to publication selection (all Templates are available on Conference website).
- Full paper length: recommending 4–8 pages including figures, tables, and references. All figures and tables must be clear, high-resolution, and properly captioned. IEEJ-TEEE Journal charges a fee based on the number of pages, so authors should check the details beforehand.
- Submitted paper must be original and not previously published or submitted to other journals at the same time. All listed authors must contribute substantially to the work, and AI-generated content must be disclosed in the paper.
- From this Step 3, authors no longer have the right to change the field/session and the journal selected for publication.

Step 4. Manuscript Notification: August 1, 2026

- The Publication Committee will review the format and check for copyright/plagiarism and notify authors of the full paper status.

- Full papers that do not meet the format, quality standards and plagiarism will be rejected.

Step 5. Final manuscript submission: before September 1, 2026

- Authors complete the full paper and submit directly via journal links (for selected submission to publication (2), (3) and (4)) or the ICEBA2026 submission website (for selected submission to publication (1) before September 1, 2026);
- The secretariats will send submission links and guidance corresponding to each publication the paper has been accepted along with the Manuscript Notification on step 4.

Step 6. Registration and Conference attendance

- Authors must register and complete payment of conference fee before the conference (Early bird: before 15 September 2026) or at the conference (On-site, 2 September 2026) to be eligible to present.
- Submissions with no author attended (complete registration and payment) will be considered withdrawn and their final review process will be terminated and not be published in any publication selection.
- The conference fee is announced on the ICEBA2026 conference website. This fee includes: ICEBA booklet, coffee break, lunch, welcome/farewell parties, local transportation, and publication (IEEJ-TEEE Journal (3) publication fee is not included);
- In special cases, authors should contact the ICEBA2026 Secretariat (Contact information in below or on conference website);

Step 7. Final Reviewing process (before November 15, 2026 – may extend)

- The Publication Committee of the four journals will conduct a full paper peer review according to the journal's regulations and procedures.
- The peer review process will be completed before November 15, 2026 (may extend depending on the journal reviewing process speed);
- Authors cooperate with the journal during final reviewing process on corresponding system when submitting final manuscript in step 5.

Step 8. Notification and Publication

- Once the paper is accepted, the journal's editorial board will notify the main author via email. Authors who pay the publication fee (for IEEJ-TEEE Journal, Japan) can request an acceptance certificate and are awaiting publication;
- The full paper will be published online;
- For hard copies (if available), authors contact with journals for following guidelines.
